

United Way of Cleveland County's Response to COVID-19

United Way of Cleveland County is standing ready to assist during this current health crisis facing our community.

We are proud to serve our community. We take the health and safety of our friends, colleagues, family, and our staff members to heart. We want everyone to remain safe and as healthy as possible during this situation that for the overwhelming majority of us, is unlike anything we've experienced in our lifetime.

We have reached out to our local county leaders offering to do what we can to help as we move forward in the upcoming days and weeks.

We recognize that the Coronavirus could potentially impact our clients and the way your organizations are adapting to support. If you are planning to add programming to support clients during this time, please reach out to NC 2-1-1 with that information. They are collecting statewide economic hardship resources so that they can best direct our neighbors in need to the places best suited to support them.

For Our Corporate Partners we will share any pertinent information that we receive to help you stay informed. Remember that NC 2-1-1 can be a valuable resource to you and your employees.

We applaud the spirit of our community in working together. The efforts of Cleveland County Schools to continue feeding students, demonstrates the overwhelming goodness and commitment our leaders have to our students and their families. There are many other examples of people working together to assist others and we are appreciative to everyone that has stepped up to help.

Thank you for your patience and understanding as we all adjust to the rapidly changing situation. If you are searching for resources, we encourage you to utilize 2-1-1. It's staffed 24/7 and translators are available for non-English speaking individuals.

Leslie J. Cobb – President & CEO, United Way of Cleveland County
